Chinese War Lord Scorns Truce, Plans Attack

TOKYO HOSTILE TOWARD EFFORTS OF LEAGUE HEADS

Nipponese Foreign Office
Lets It Be Known That
Council Will Not Be Allowed To "Save Face" at
Expense of Japan.

CHINESE CAVALRY BEATEN ON NONNI

Ambassador Dawes Central Figure on Eve of Special League Meeting in Paris.

By The Associated Press.
The Rengo News Agency reported in Tokyo that negotiations for a 10-day truce between the Chinese and Japanese armies in the Nonni river area had failed, and General Mah Chan-shau was planning an attack at dawn today.

Japan's attitude toward the meeting of the League council in Paris was represented by a spokesman for the foreign office as being "the League cannot save its face at the expense of Japan."

The Japanese headquarters at Mukden reported its army had defeated a Chinese detachment of 4,000 cavalrymen in the Nonni river front yesterday and occupied a village near Tali-

League leaders assembled in Paris in a crucial meeting which it is hoped will break the deadlock between Chinese and Japanese spokesmen. The negotiations centered around American Ambassador Dawes.

General Ma was quoted in Peiping as adding that his army had suffered severe reverses in a two-day battle with the Japanese army around the Nonni river bridgehead.

Henry Pu-yi, former boy-emperor of China, apparently still was in hiding in Mukden and his expected enthronement by Japanese as emperor of Manchuria failed to materialize.

TOKYO HEARS MAH PLANS EARLY ATTACK IN FORCE

TOKYO, Nov. 15.—Negotiations looking toward a 10-day truce between the Chinese and Japanese in the Nonni river sector of Manchuria were reported today to have failed. General Mah Chan-shau was said to be planning a general attack tomorrow at dawn.

The Rengo News Agency said in a dispatch that Harbin, where the Japanese representatives, General Shigenzu and Major Hayashi, had been unable to conciliate General Ma and had returned to Harbin, closing the consulate at Tsitsihar.

Chinese sources in Harbin said the Chinese commander would take advantage of the truce to launch a strong offensive against General Honjo's troops to illustrate his repudiation of the Japanese warning to evacuate his position by November 25. He was said to consider his withdrawal would be contrary to Chinese interests.

General Shigenzu was quoted by Rengo as saying General Ma had displayed a desire to receive the Japanese proposals to withdraw north of the Chinese Eastern railway so as to avert the danger of another clash, and remained obstinate. They decided to leave Tsitsihar because of the difficulty of communicating with Tokyo and because of Chinese interference.

These reports conflicted with a Mukden dispatch to the Tokyo newspaper Nichi, which said the truce had been arranged pending completion of repairs on the Nonni river bridge. The Japanese envoys were said to have presented General Honjo's five conditions on which he would transact his own troops.

Commenting on dispatches from Moscow that Foreign Commissar Litvinoff had reminded the Japanese ambassador of Russia's rights in Manchuria, official circles attributed General Ma's defiance partially to the fact that he allegedly was receiving aid from the soviet republics.

Not Neutral.
It was claimed that information assembled from various Japanese sources showed that the Chinese East-

Culbertson and Lenz Sign for Bridge Test

NEW YORK, Nov. 15.—(AP)—The much-heralded Ely Culbertson-Sidney Lenz contract bridge match will be held December 7 and January 15.

Mr. Culbertson met Mr. Lenz at a luncheon today and then signed the contract calling for four sessions each week until 150 rubbers are completed.

Mr. Culbertson, who will pair for at least half of the rubbers with his wife, posted a check for \$5,000 that his approach-forcing system of bidding would better the official record of 100. Lenz, the latter posted a check for \$1,000 to back the skill of himself and Oswald Jacoby, his partner.

Mr. Culbertson will play with either Waldemar Von Zebitzwitz or Theodore Lightner during the latter half of the 150-rubber competition.

Mr. Culbertson, who will pair for at least half of the rubbers with his wife, posted a check for \$5,000 that his approach-forcing system of bidding would better the official record of 100. Lenz, the latter posted a check for \$1,000 to back the skill of himself and Oswald Jacoby, his partner.

Mr. Culbertson will play with either Waldemar Von Zebitzwitz or Theodore Lightner during the latter half of the 150-rubber competition.

Mr. Culbertson, who will pair for at least half of the rubbers with his wife, posted a check for \$5,000 that his approach-forcing system of bidding would better the official record of 100. Lenz, the latter posted a check for \$1,000 to back the skill of himself and Oswald Jacoby, his partner.

MONTERO REASSUMES CHILEAN PRESIDENCY

Announces Intention To Put
Program Into Effect Im-
mediately.

SANTIAGO, Chile, Nov. 15.—(AP)—Juan E. Montero reassumed the acting presidency today and announced his intention to put his program into effect immediately, without waiting

until he takes the oath of office Dec. 5 for the full six-year term.

Elected on October 4, he received authority from Acting President Maximo Trujillo, who succeeded him temporarily when he took a leave of absence to run for the presidency. Montero became vice president and acting president last July when President Carlos Ibanez was overthrown by a civil uprising.

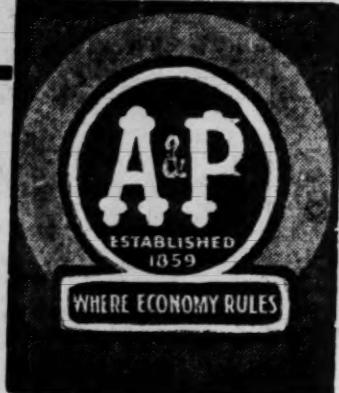

A new cabinet was appointed and installed. It included Marcial Mora, premier, and minister of interior; Luis Fontecel, minister of finance; Carlos Belmancela, minister of foreign affairs; General Carlos Vergara, minister of war; Admiral Enrique Sporer, minister of marine; Santiago Labarca, minister of education; Luis Gutierrez, minister of justice; Luis Joaquin Prieto, minister of agriculture.

The license renewal was denied after an extended controversy. The Rev. Robert Shuler, of the church, roused opposition by his broadcasting, in which he frequently attacked officials and citizens.

The commission held "religious strife and antagonism" had been pro-

moted.

DEL MONTE FOOD SALE

All This Week

And now . . . for this week . . . a big sale of famous Del Monte Foods at extra special savings. Every housewife knows the Del Monte label . . . it stands for fruits and vegetables of the finest quality. But get your order in early! So exceptional are the savings . . . even our great supply may not last.

RADIO COMMISSION SCORED BY CANNON

WASHINGTON, Nov. 15.—(AP)—Bishop James Cannon Jr. today charged that the radio commission "attacked" religious freedom in refusing to renew the license of the radio station of the Trinity Methodist Episcopal Church, South, of Los Angeles.

The Southern Methodist churchman, in a formal statement, described the commission's action as "revolutionary."

The license renewal was denied after an extended controversy. The Rev. Robert Shuler, of the church, roused opposition by his broadcasting, in which he frequently attacked officials and citizens.

The commission held "religious strife and antagonism" had been pro-

TWO ALABAMA SOLONS FACE LIQUOR CHARGE

Phenix City Mayor Also
Among Two Score Citizens
in Conspiracy Case.

OPELIA, Ala., Nov. 15.—(AP)—Details of an alleged rum ring operating in eastern Alabama will be re-enacted in Phenix City, Ala., today, and here tomorrow as more than two score residents of Phenix City and vicinity go on trial charged with conspiracy to violate the national prohibition laws.

Included in the defendants are two state legislators: Representative Charles T. Clayton, of Russell, and Representative Claude B. Gullatt Sr., of Lee; Walter Sherer, former mayor of Phenix City; E. L. White, former city commissioner; several patrolmen and prominent citizens of the east Alabama city.

Sheriff Flanders, of Calhoun county, Florida, also is listed as a defendant.

The government has a list of 150 witnesses, but the trump card in the case is David W. Palmer, special agent, who rounded up the evidence on which nearly 60 persons were indicted.

Officials said details of rum running from the western coast of Florida to Alabama and west Georgia will be unfolded during the trials.

W. A. PATTON DIES
IN SHUBUTA, MISS.

W. A. Patton, 84, of Shubuta, Miss., died Sunday at his home there. He was a leading Baptist of the state and was well known to Georgia Baptists. A prominent merchant of his city, Mr. Patton, with his colleagues, started the prohibition movement in Mississippi and was actively interested in it until his death. He was an old friend and grandfather of J. J. Gonzales, wholesale coffee merchant of Atlanta. Funeral services for Mr. Patton will be conducted today in Shubuta.

K. of C. Election.

NEW YORK, Nov. 15.—(AP)—The Knights of Columbus Council Editors' Association International today elected the officers and directors for the coming year. Rev. Winfield Parsons, New York, was named chaplain, and John F. Courtney, Brooklyn, president. Directors elected included Very Rev. Mons. Spengler, Gulfport, Miss.

REPEAL OF DRY LAW WOULD NOT AID BUSINESS, PROHIS DECLARE

WOULD BOOST U. S. REVENUE BUT HIT PRIVATE BUSINESS

Poll Shows Ratio of 7 to 2 Senators Favor Continued Enforcement of Present Statute.

(Copyright, 1931, for The Constitution by the National Newspaper Alliance.)

NEW YORK, Nov. 15.—Those members of the incoming congress who, in a poll taken of the membership, stand firm against any change in present prohibition legislation, contend for the most part that repeal would be a disaster, and they combat statements by advocates of repeal that this would be of tremendous aid to business and to government revenues.

A few of those who wish the law kept as it is concede that the government's revenues might be increased by repeal or modification, but they believe that any such increase would be offset by losses in other directions, that business other than the liquor industry would suffer, and that there would be a general moral retrogression. Some express the view that present economic conditions would be worse than they are if it were not for repeal.

Fourteen senators of the twenty-five who answered a questionnaire sent to all members of congress inquiring their attitude on prohibition are for continued enforcement. Of the 111 representatives who took part in the poll, twenty-three are for enforcement.

As shown in a preceding article, only seven senators voted for repeal. Seventy-nine representatives were for prohibition, representing those who have no desire for modification, and nine representatives want modification. The replies of those wishing modification are included in this article, with those of supporters of enforcement, and with answers, difficult of classification, which are listed as "miscellaneous."

The replies from those standing for enforcement follow:

FOR ENFORCEMENT.

SENATE.

SMITH W. BROOKHART (republican), Iowa: "The existing prohibition law is the only method that gives any promise of success in handling the liquor traffic. Even though it is succeeding, one person in fifty is taxed, it is believed, to pay more than one in a hundred in the higher brackets. These higher brackets are the profiteers upon the whole country. Their taxes ought to be increased to care for unemployment. It would be a travesty to reduce these brackets and tax the already oppressed common people, like the tax on beer, for instance. The financial crisis of some of them, are anxious to agitate the people about liquor or anything that will cause them to forget what this crowd have done to our prosperity. Also, they would like to reduce their own taxes and increase their already extortive incomes at the expense of the ordinary man. Legalized liquor would cause unemployment and crime and injure agriculture. It takes away the buying power for its products many times more than what would be used in the manufacture of liquor."

ARTHUR CAPPER (republican), Kansas: "I favor enforcement of the existing prohibition law. It has made tremendous moral and economic contributions toward the national welfare, even though the law has been, and is being violated. I believe our economic condition would be worse than it now is if we did not enforce it. Nothing could be more stupidly fatal, in my opinion, than to propose as a relief in hard times the opening of wine and beer halls in which the hard-pressed worker could squander his earnings. If there ever is a time when earnings should be closely guarded against foolish spending it is such a time as this. The workers and their families, whether employed or waiting for employment and carefully husbanding their savings, should be and are grateful for national prohibition."

TOM CONNALLY (democrat), Texas: "Enforcement." Senator Connally does not believe elimination of present prohibition would reduce the government deficit or unemployment.

EDWARD P. COSTIGAN (democrat), Colorado: Mr. Costigan's secretary writes as follows: "Senator Costigan is so occupied with other public matters that he has asked me to make a general reply. I know his views so well that I am able to say for him that he does not favor the repeal of the 18th amendment. He is a strong advocate of the enforcement of it and the present legislation having that end in view. Any proposed amendment modifying such present legislation would be considered by him on its merits."

LYNN J. FRAZIER (republican), North Dakota: "The 18th amendment is part of the country's tradition, and as long as it is, should be reasonably well enforced. There is an immense amount of propaganda that a liquor tax would raise revenue and help reduce the present taxes. I have a vivid recollection of the saloons days and never felt that the liquor tax was of any particular benefit and invariably observed that the results of the same could not be expected, either by local option or state and national provision, conditions were better. Our present so-called depression is world-wide and is the natural after-effect of the war. While conditions are most deplorable in our country, according to all accounts the situation is vastly better than in most other countries, and the fact that we have prohibition un-

doubtedly has kept conditions from being much worse than they are. Our unemployment situation is mighty bad, but conditions, in my opinion, would be lot worse if we had the saloons days. I am strongly in favor of prohibition, and would like to see better enforcement."

THOMAS P. GORE (democrat), Oklahoma: Senator Gore's secretary writes calling attention to a plank of the democratic platform adopted at the Oklahoma state convention in 1930. This plank opposed repeal.

R. H. HOWELL (republican), Nebraska: "Enforcement, because it is the best solution of the liquor question thus far devised."

WESLEY L. JONES (republican): "I have no good reason to change my attitude toward prohibition." Senator Jones has always been a strong supporter of the eighteenth amendment.

WILLIAM H. KING (democrat): "Until: "So long as the existing prohibition law is upon the statute books I favor enforcing it. I was opposed to the eighteenth amendment and the Volstead act, believing the question of prohibition should be left to the states, and, secondly, in favor of modifying the present law. I do not think there is sufficient public sentiment in favor of such a movement. Moreover, with the constitutional amendment in force, no modification would be possible that permitted the manufacture, sale or transportation of alcoholic liquors which are intoxicating in the smallest amount prescribed by the 18th or 19th amendment."

THILM B. PARKS (democrat), Arkansas: "Enforce the prohibition law because it is the law. I think repeal or modification would increase the government deficit instead of decreasing it."

JOHN E. MILLER (democrat), Arkansas: "I favor the enforcement of the 18th amendment and shall continue to favor the right enforcement of our criminal laws so long as they are in force. I consider the liquor traffic an evil, and it should be dealt with as an evil. I do not think the return of wine and beer would decrease federal taxes or would reduce unemployment and agricultural distress."

ROBERT L. RAMSPECK (democrat), Georgia: "Enforce the prohibition law because it is the supreme law of the United States. Return of beer and wine would bring in some revenue, but would, in my opinion, have little if any effect upon taxes, unemployment and agricultural distress."

FRANCIS SHERIFFING (democrat), Ohio: "The least possible consumption of alcohol as a beverage is in the best interests of the American people as a whole, and I lay this down as a basic proposition. It is my understanding that neither wet nor drys desire to return to the saloon. The conclusion must therefore be that the situation is better under the 18th amendment than under the saloon."

A. J. MAY (democrat), Kentucky: "I am convinced the present national prohibition law cannot be enforced. I favor modification of the Volstead Act so as to define intoxicating liquor as beer and wine and beer. This, I believe, would satisfy a majority of people who are determined to use liquors. A high-licensed, rigorously-regulated trade in light wines and beer would yield millions of revenue, furnish employment to hundreds of thousands and a market for millions of bushels of farm products. Light wine and beer would eliminate much of the illicit bootleg liquor traffic, save millions now being spent in a futile effort to enforce the present law, and thus reduce the treasury deficit."

WILLIAM A. PITTERSON (republican), Minnesota: "As a member of the Minnesota legislature I voted against modification of the 18th amendment. In six primary election campaigns I announced that I favored the Canadian and Scandinavian methods of liquor control."

GEORGE J. SCHNEIDER (republican), Minnesota: "I have always favored the Volstead act, permitting the manufacture of wholesome beer and wine. I have always been opposed to prohibition, realizing the impossibility of its enforcement and the resulting disrespect for law."

WALDRON R. WITHROW (republican), Wisconsin: "I have a referendum on the question of the repeal of the 18th amendment as proposed by the American Legion. I favor a legalization of beer, believing that the legal manufacture of beer under strict government control would bring a large measure of revenue to the treasury of law and order."

MISCELLANEOUS.

S. J. BULOW (democrat), South Dakota: "I have been mistaken so often in reaching conclusions that seems best to keep an open mind in approaching this prohibition bridge. I might say, however, that if I had the building of the approaches to this bridge, I would be tempted to shoot straight across the bridge, ignore the wet, and let men and women of common judgment, who have respect for the opinions of their neighbors, construct the approach. The use of liquor is not going to be settled by any method that can only be brought about when the present majority have consciousness of moral wrong in taking a drink. We have the 18th amendment, but that settles nothing unless obeyed or enforced. Congress passed the Volstead act and some among a criminal who consumed some alcohol, self-contained, consumed one-half of one per cent of alcohol. Chemists tell me every one violates that law. They tell me even bread, unless it is out of the oven, will violate the law. I believe the approach has to be both scientific and emotional, as well as monetary self-control."

CHARLES L. SPARKS (republican), Kansas: "The existing prohibition law is the most satisfactory solution of the liquor problem our country has ever known. No solution will ever be 100 per cent perfect. It is immaterial in my judgment what effect legalizing wine and beer will have on revenue. It is a matter which vitally affects the people of this country, and should not be judged by its benefits or losses financially to our federal government."

ADDISON T. SMITH (republican), Idaho: "The existing prohibition law is the best plan yet devised for control of the liquor traffic. Until the plan has been tried at least ten years, I would not be in a position to repeat. Under repeat government control, it would benefit, but at a cost which would be disastrous to the peace of communities, including loss of employment by men who would become addicted to drink if the saloons were restored, or if liquor could be more easily and more cheaply acquired."

CHARLES L. SPARKS (republican), Kansas: "The existing prohibition law is the most satisfactory solution of the liquor problem our country has ever known. No solution will ever be 100 per cent perfect. It is immaterial in my judgment what effect legalizing wine and beer will have on revenue. It is a matter which vitally affects the people of this country, and should not be judged by its benefits or losses financially to our federal government."

ATLANTA, GA., NOV. 16, 1931.

THE JACKSON CONFERENCE.

Should the cotton conference at Jackson, Miss., next week, called for the purpose of devising a plan for drastic acreage reduction in cotton next year, be successful, a definite step will have been taken towards solving the most critical problem now facing the south.

A number of southern governors, among them Governor Russell, have indicated their intention to attend the conference, which will be composed of leading farmers, businessmen and agricultural leaders for every cotton-growing state.

The conference was called as a result of the failure of the several states, through their legislatures, to unite on any one plan for reduction of cotton acreage.

Another crop of the size of the one grown this year, or even approximately as large, will spell disaster not only to our farmers but to the entire business structure of the south. Nor is there any disagreement to the fact that the reduction must be a material one.

The Long plan adopted by the Louisiana legislature contemplated the entire cessation of cotton planting next year. It had strong support. The uncertainty as to whether it was advisable, practical or legal, however, caused Texas to refuse to adopt it. Since the plan was dependent upon ratification by states growing three-fourths of the cotton crop, the action of Texas effectively killed it.

Having voted against the Long plan, the Texas legislature enacted an acreage reduction law, making it inoperative unless states producing a large per cent of cotton should concur. This has not been done.

So there is still no definitely adopted plan for limiting next year's crop.

It was because of this situation that the conference at Jackson was called by the Louisiana Cotton Relief Association in the hope that the assembling of representatives from the cotton states might result in agreement upon a plan on which all the states could unite.

In view of the vital necessity for concerted action, it is to be hoped that these representatives of agriculture, business and government will be able to evolve some practical plan of reduction, either through legislation or through voluntary action by the growers.

THE CRAZE FOR NEW LAWS.

Walter J. Price, veteran member of the New York Stock Exchange, lays squarely at the door of the American people the fault for the multiplicity of legislation which jams the statute books of the country.

In an address before the Chicago Board of Trade he said that more efficient laws, and less of them, can never be expected, until the people elect to office only candidates of outstanding character, who put the public good ahead of loyalty to cliques or blocs.

The craze for legislation of all sorts during the past quarter of a century has resulted in the enactment of thousands of new laws, the majority of which instead of improving conditions affecting the public have had the effect of slowing down the operations of government.

Not until the people send to their legislative halls men of big enough calibre to resist the appeals for special laws of little or no use,

can an improvement in the situation be expected.

The fact that the ends sought to be accomplished by most of these laws could be accomplished by statutes already in existence makes all the more inexcusable the orgy of legislation of new laws.

OUR DAY OF THANKS.

Without waiting to marshal together the things that have lately increased market values of agricultural stocks, led to larger demands for the commodities of commerce and notably speeded up the purchasing disposition of the people, celebrations of "reviving prosperity" have been fervently indulged in by many communities. Such evidences of new popular faith and hope are well in their way. They break up the clinics of calamity, help to scatter the croaking "birds of ill omen," and encourage men of courage to say to each other that "the worst has come and gone." They serve to show that the wreckage of enterprise and business has been more in the rumor than in the reality. They unveil the always truth that to ruin in any form of permanence the capacities for prosperity of 123,000,000 persons of such intelligence, activity and self-governance is practically impossible.

Our people have been passing through one of those dumb economic storms that shake every generation once or oftener, testing their resources, faith and fortitude. This time they have not been alone in their experiences and the signs of the times show that they have suffered less in actual losses and crosses than any of the other people of the civilized globe.

We still have our unlimited resources, and capital in volumes hitherto unknown, and the basic metallic money for a certain and unimpeachable currency of international exchange, and above all a more contented labor whose unemployment has been amortized more easily than in other countries and will be carried without mortifications through the winter.

We are at the headwaters of a new "River of Plenty," and can well afford to give thanks to our Great Provider a few days hence.

OUR CHILDREN'S SIGHT.

Recently issued publicly of the National Society for the Prevention of Blindness emphasizes the necessity for safeguarding the eyes of the school children of the country.

Half of all blindness is preventable if proper steps are taken when defective sight is first observed, and the national society is concentrating its efforts on the creation, through agitation and education, of a condition of watchfulness and care that will reduce to the minimum the number of blind in every state in the union.

The society especially urges that children of defective vision should be educated in classes apart from those of normal eye sight, because of the marked difference of the systems of teaching. For blind children the chief avenue of educational approach is tactile—that is pertaining to the sense of touch—while for those who are normal it is visual.

For the children of poor vision there should be provided adequate lighting, both natural and artificial, without glare; and the surface of walls, woodwork, blackboards and desks should be dull so as to prevent injurious reflections.

In most of the city schools provision is now made for these unfortunate children, but vast room for improvement still exists in those in the smaller towns and in rural schools.

The National Society for the Prevention of Blindness has on its rolls as members and supporters many of the country's outstanding physicians and laymen, who have joined in the work to limit to the lowest minimum the number of their fellow citizens who must go through life handicapped by blindness.

Announcement from Columbus that buses will take the place of trains discontinued because of lack of patronage, contain a warning of what may be expected if present unequal railroad and bus and truck taxation continues.

The number of "ultimatums" which have already been handed out by the Japanese and Chinese would have resulted in half a dozen wars in any other section of the world.

Representative Hamilton Fish, of New York, is far from being alone in his belief that some of Theodore Dreiser's views make him "a dangerous man."

Athens now knows what it means to be a football mecca.

The fact that the ends sought to be accomplished by most of these laws could be accomplished by statutes already in existence makes all the more inexcusable the orgy of legislation of new laws.

THE WORLD'S WINDOW

BY PIERRE VAN PAASSEN

Cyprus

Revolt.

The Cypriots suddenly decided that they had enough of British rule and started to riot. They are, of course, Greeks by race and even claim to be of Hellenic strain than the Athenians or any other Greeks of the mainland. When Greece was apparently overrun by foreign conquerors, the Cypriots claim that they have kept themselves clear of alien taint and are therefore the direct descendants of the ancient heroes of Hellas.

The traveler landing at Nicosia hears fishermen and fishers on the quay address each other as Demosthenes or Alcibiades. As happens to be the case on the island of Corsica, where the young boy and girl are either called Napoleon or Napoleonine on Cyprus even man you meet seems to answer to the name of Platons.

That the Platons of Cyprus are not as wise, however, as their great namesake of antiquity must be clear from the revolt they started against British rule. They are not the only ones to chance to succeed. The name of the British governor of Cyprus is Sir Ronald Storrs. Every reader of Colonel Lawrence's book, "Revolt in the Desert," knows that the first chapter of that work is entitled "Storrs Comes to Cyprus." He is not the kind of man to be fooled with as Lawrence showed abundantly. For some time Sir Ronald was governor of Jerusalem. This was after the capture of Palestine by Lord Allenby. He pacified the unruly Bedouin tribes, which, as Lawrence says, were ready to cut anybody's throat.

THE CONSTITUTION, ATLANTA, GA., MONDAY, NOVEMBER 16, 1931.

Only Those With Passion To Win Much Have the Ability To Win It

By Robert Quillen

Though the love of money is the root of all evil, the love of success is the inspiration of all progress and achievement.

Mankind's most useful servants during any period of history are those who are dominated by a selfish passion for wealth, power or renown.

The few exceptions are those who achieve great things and find sufficient reward in the consciousness of doing well the work they find to do.

The first great industrialists were kings.

In history books you read praise of this and that monarch who conquered and destroyed his neighbors, but there is occasional brief reference to one whose reign was noted for the building done and the improvements made.

The king who built cities, dug canals and constructed roads needed the genius of a modern industrial giant. He could force millions of his subjects to work without pay, but the task of feeding them, providing tools and building materials and raising the necessary money without levying greater taxes than his people could bear—all of this required an executive ability and a genius for organization that any modern might.

If the modern builders are more efficient, it is because they have greater obstacles to overcome. Instead of levying taxes to pay construction costs, they must earn the money as they go and do it by outwitting competitors. Moreover, they dare not rest on their laurels as a king might do, for the moment they quit going forward they begin to lose ground to a more enterprising rival.

They are selfish men, as all men are, but they are the builders of civilization and without them no building would be done.

You will answer that governments can build, as in Russia; but a government is composed of men, and it builds great works only when the men who compose it dream great dreams and are driven by a great ambition to win and hold the power necessary to great achievement.

Call them kings, communists or capitalists, they are driven by the love of success—by the passion to achieve—by the fundamentally selfish ambition to win power and renown, to excel their fellows, and to prove the metal that is in them.

Such men provided America's railroads, the telegraph and telephone systems.

They made this a great nation, but they did it while striving for personal gain. Without hope of reward, there would be no builders. Men talk about unselfish service for the common good, but those who do the talking show no capacity for great achievement. The ability to do great works is given only to those who hunger for great rewards.

Health Talks

BY DR. WILLIAM BRADY

ARTIFICIAL RESPIRATION.

A service station has a gadget for inflating tires that strongly appeals to the machine-minded public, including yours truly. It is called an air scale, and the clerk asks what pressure you'd like to add in. The scale sets the scale at the desired pressure and turns on the air. Then a little whistle blows intermittently till the pressure in the tire reaches the point desired. Some day the whistle is going to get stopped up or out of order, and somebody's car is going to make an accident. Just the same, I'll limp across town to get to that station any time the machine is so fascinating.

Professor Yardell Henderson, our greatest authority on artificial respiration, rather grudgingly, as it seems to me, admits that it is well to have the victim's arms extended well above the head. I like to hold the patient's arms above the head, and when I am inflating the lungs, I am breathing into the patient's mouth. But he doesn't think that the Red Cross trick of placing one of the victim's arms under his head is wrong.

It is the Red Cross that has the best technique, and I am following it.

They are selfish men, as all men are, but they are the builders of civilization and without them no building would be done.

You will answer that governments can build, as in Russia; but a government is composed of men, and it builds great works only when the men who compose it dream great dreams and are driven by a great ambition to win and hold the power necessary to great achievement.

Call them kings, communists or capitalists, they are driven by the love of success—by the passion to achieve—by the fundamentally selfish ambition to win power and renown, to excel their fellows, and to prove the metal that is in them.

Such men provided America's railroads, the telegraph and telephone systems.

They made this a great nation, but they did it while striving for personal gain. Without hope of reward, there would be no builders. Men talk about unselfish service for the common good, but those who do the talking show no capacity for great achievement. The ability to do great works is given only to those who hunger for great rewards.

Cross Sections of Life In Gate City of South

Membership drive by the Atlanta Chamber of Commerce for 200 new members will be inaugurated this week, according to T. L. Johnson Jr., chairman of the contact and membership committee. The fall forum luncheon will be held Wednesday in hall No. 2, with Solicitor General John A. Boykin as the principal speaker. Eight new directors of the body for 1932 and 1933 will be elected at 1:30 o'clock Tuesday afternoon, Robert P. McLarty, chairman of the election committee, announced.

Southern Warehousemen's Association meeting will be held at the Henry Grady hotel Thursday and Friday, according to John J. Woodsid, secretary of the organization. E. C. Lowry, of Montgomery, Ala., president of the association, will preside. High officers of the national body will address the convention.

National Book Week will be celebrated this week in Atlanta with book fair, radio talks and exhibits at all city schools. Miss Mary Frances Cox, in charge of the children's department at the Carnegie library, announced, Miss Cox will talk on "Children's Books Yesterday and Today," over station WSB at 10:30 o'clock Thursday afternoon.

Emory University Glee Club and Orchestra will present the annual Emory burlesque Thursday and Friday nights at 8 o'clock at the university auditorium. The show will be directed by Billy Hunter, president of the glee club, and Dr. Malcolm H. Dewey, director of the club. Tickets are on sale at the glee club office. Dearborn 4479.

Annual convention of the Christian Churches of Georgia will begin here Tuesday for a three-day session. More than 300 delegates will attend, it was said. Prominent speakers from all over the state will take part in the program. A. D. Strohacker of Savannah, will preside.

John Lowe, former city detective, who is suffering at the Georgia Baptist hospital from a self-administered dose of poison, according to his wife, is improving, attaches at the hospital said Sunday night. Lowe took the poison in a fit of despondency Saturday morning, his wife said. His condition is still serious.

Open house will be held at Grady hospital Tuesday afternoon, according to Mrs. Louis J. Elias, of the Woman's Auxiliary, which is sponsoring the event. The public is invited to inspect the institution. Governor Richard B. Russell Jr. and his staff have received special invitations. Mrs. Elias said.

Bobby Cole, 7-year-old son of Mrs. W. B. Cole, 537 Chestnut street, N. W., while playing Sunday morning in the snow, fell and broke his left arm. After receiving treatment at Grady hospital he was seen home.

W. C. Roden, 72 years old, of 276 1/2 Decatur street, stumbled over until arriving in Washington, a flight which is expected to take about two hours.

State department representatives, who came here to make final arrangements, said it was doubtful if Colonel Lindbergh could take off before 12:30 p. m.

WASHINGTON, D. C., Nov. 15.— (Dino Grandi and his party, accompanied by Colonel Charles A. Lindbergh, are expected to reach Washington about 3 p. m. tomorrow.)

The state department said the changed plan for bringing Grandi to Washington was attributable to the delay which he had encountered because of storms on the ocean.

"It now appears," the state department said, "that the vessel of Signor Grandi and his party are traveling the Atlantic. As a result his reception upon arrival is modified.

"The American government is very anxious to be able to place at the disposal of our guests its foremost pilot and the most recent product in the development of transoceanic flight, which fully expresses our friendship and goodwill but allows the fulfillment of Signor Grandi's expressed desire to greet the president of the day of his arrival in the United States."

Secretary Stimson already has received a message from Grandi, according to the American government, that he is to be received at the capital in the name of the Italian foreign minister, Stimson, said.

"There is ample room for yourself, Signora Grandi and all the members of your party (aboard the ship). An early reply from you would be greatly appreciated," he said.

"I repeat that you have been encountering such unfavorable weather," (Signed) "STIMSON."

Grandi replied by wireless through Ambassador De Martino, of Italy, he said:

"beg your excellency to tender to Mr. Stimson the expression of my heartfelt and profound gratitude for what he has telegraphed me. I am exceedingly happy to accept all that has been arranged, which I consider a quite exceptional honor and satisfaction. My wife will accompany me."

"I am a native of Campbell county, Virginia, and was graduated at Princeton University. I have a Master of Arts and Doctor of Divinity degrees at Princeton University.

Dr. Strohacker said that the committee on appeals appointed by the trial committee had filed a formal notice of appeal, he was not certain that the appeal would be taken.

Dr. St

HAMILTON YANCEY PASSES AT ROME

Prominent Georgian Succumbs at Residence in 83d Year.

ROME, Ga., Nov. 15.—Hamilton Yancey, one of north Georgia's most prominent citizens, deputy state insurance commissioner, died at his home here at 7 o'clock Sunday night. Mr. Yancey was 82 years of age.

Mr. Yancey was manager of the St. Mutual Life Insurance Company and of the Commercial Union Company.

He had been in ill health since an automobile accident about a year ago, when both his legs were fractured.

Funeral services will be held from the residence on Tuesday at 2 p.m.

Mr. Yancey is survived by four

daughters, Mrs. Sam D. Hewlett, Atlanta; Mrs. Donald B. Gillies, Cleveland, Ohio; Mrs. Austin Clark, Long Island, and Mrs. George Newton-Rome, and one son, Hamilton Yancey Jr., of Americus. He is also survived by 12 grandchildren. They are Sarah, Alice, and Sam Hewlett Jr., Atlanta; Mrs. Alice Alexander and Mrs. Richard Dendy, of Atlanta; Hamilton Yancey III, of Rome; Austin, Hamilton, and Claire Clark, of Long Island; Mary Lou and Donald B. Gillies, of Cleveland, Ohio.

POLISH AMBASSADOR HONORS SAVANNAHANS

SAVANNAH, Ga., Nov. 15.—(P)

His excellency, Tytus Filipowicz, ambassador from Poland to the United States, presented decorations here Sunday afternoon from the republic of Poland to Savannah citizens, laid a wreath on the monument erected here to the memory of Casimir, Count Pulaski, who died at the siege of Savannah October 1, 1779, and guest of honor at a luncheon tendered him and members of his legation by Mayor Hoyne, of Savannah.

The following were the decorations:

On Judge Gordon Saussey, who was mayor of Savannah then, the time of the semi-centennial observance of the death of Pulaski, Polonia Restituta, officer's cross; Mrs. Peter W. Meldrum, Major W. W. Gordon, George Noble Jones, Thomas Gamble, Rev. Father Joseph D. Mitchell, Robert M. Dredge, John J. Kelly, Polonia Restituta, officer's cross; Brigadier General Robert J. Travis, cross of merit with ribbon; Lieutenant James F. Glass, cross of merit, J. P. Daily and Major Charles R. Peterson were presented with paintings of the head and bust of Count Pulaski. The ceremony was in the hall of the Georgia Historical Society.

Wreaths were laid upon Pulaski

monument by the Polish ambassador in behalf of his country, by the Polish Alliance, by the Polish-American Medical and Dental Association and by the Georgia Society of the Sons of the Revolution.

Ambassador Filipowicz, who came with Mayor Hoyne, visited the scene of the fatal wounding of Pulaski as he led his cavalry against Springhill redoubt, where the British were entrenched on the west of the city. This spot has been located with the assistance of the Central of Georgia railroad, and a West Broad and Railroad streets at the beginning of the Louisville road. Across the street from the depot is the tablet marking the general location of the assault. Pulaski's charge was along the road, now railroad street, and he was caught between the British redoubt and a fence.

Four of them on his right resulted in a shot in the Polish general's side. He was taken from the battle ground, placed on board a ship of war, and died at sea two days later from blood-poisoning caused by the wound.

The monument, which was erected by Savannah citizens some years ago and is the work of a Polish sculptor, Launitz.

Ambassador Filipowicz will remain in Savannah until Monday morning when he will leave by automobile for Washington. He came here today from Augusta, where he participated in the memorial to Dr. Paul Fitzsimmons Eve, who gave such notable service to Poland in its struggle for freedom 100 years ago.

RUPTURE EXPERTS COMING TO ATLANTA

G. K. Rice, Rupture Expert, of Adams, N. Y., accompanied by C. H. Bassinger, will be at Henry Gladys Hotel, Atlanta, Ga., Monday, Tuesday and Wednesday, November 16, 17 and 18. Every ruptured man, woman and parents of ruptured children should take advantage of the opportunity to seek upon these experts on the dates given.

The Rice Method is known the whole world over. You can now have it demonstrated to you by a Rice Conductor. Supper, fitted to your particular rupture. Absolutely no charge unless you are satisfied to keep the outfit after having the Support adjusted and you see how perfectly and comfortably it holds. No harsh, deep-pressing springs; nothing to gouge the flesh and make you sore. Supports a rupture night and day with positive comfort. Soft, Rubber-like composition pad gives you entire support.

Don't let a muscle all your life when thousands have reported cures through using the Rice Method. Why suffer the burden of rupture if there is a chance to be free from truss-wearing for ever? Anyway, it will cost you nothing to come in and see the Rice Experts at the above address. They are provided with all the latest most scientific and up-to-date supports for men and women of all ages. No matter what you have tried in the past or what kind of truse you are at present wearing, you owe it to your own comfort and safety to investigate what the Rice Method Experts have to offer. The demonstration and advice is free. You simply pay for what you get in case you decide the Rice Method is what you have been looking for.

Make your visit to the Hotel any time between the hours of 9 to 12 noon, 2 to 5 afternoons or 7 to 9 evenings.

Do not miss this great free demonstration by an expert on hernia. Remember the date from Monday morning, November 16th, until Wednesday night, November 18th. (adv.)

Augusta Honors Surgeon Hero

SAVANNAH COUPLE FOUND DEAD IN CAR

Man and Wife Discovered
Side by Side, Both Shot
Through Heart.

SAVANNAH, Ga., Nov. 15.—(P)—Charles J. Cook and his wife, Alice Cleo Cook, were found dead in their automobile on a country road near here early today. Both had been shot through the heart.

Coroner George Johnson said he believed it was a case of murder and suicide, but an inquest would be held. Chief W. F. Chapman, of the county police, expressed the same opinion.

The couple were found by two street railway employees, William Brey and W. L. Weatheras, who passed them on the way to the municipal airport, but thinking them sleeping, made no further investigation at that time. Returning, however, from the airport where they had gone to see Colonel Lindbergh, they saw them in the same position and made an investigation. They found them dead. Cook had a bullet in his heart and was occupying the driver's seat. His wife was lying against his right shoulder also with a bullet in her heart. Powder stains were on the clothes of both of them.

The pistol, a .32-caliber weapon, was found lying on the back of the seat. The weapon contained two spent cartridges of the same caliber as those which had been fired into the two dead persons. Because the gun was greasy police were unable to make any fingerprint photos from the gun.

A population of 500,000 by 1937 is Atlanta's slogan. Let's all pull together for ATLANTA'S CENTENNIAL

The Constitution's Weekly Business Review

EDITED BY M. D. GLEASON

Atlanta's merchants and manufacturers can supply you.
A. A. ATLANTA ALWAYS AHEAD

ENVELOPE COMPANY REPORTS PROGRESS

Several years before the turn of the century—almost 39 years ago, the Atlanta Envelope Company was first launched under the active direction and management of S. Guthman. Today the firm is operating under the same name and the same management, and its business, at first restricted almost entirely to Atlanta and nearby territory, has grown until it serves customers in practically every state in the union.

Mr. Guthman now has a large number of executive assistants, but he still remains the active head of the company. Probably few men in the envelope business are better-known throughout the industry than he.

The company makes practically every kind of commercial envelope known. One reason, no doubt, for their constant growth is the fact that every envelope leaving the plant is made to order. They do not handle stock envelopes. In this way the purchaser is able to get exactly the type envelope he requires for his particular needs. At first, thought, one might seem that having envelopes made to order would necessarily slow down deliveries. Such is not the case, however, because of unusually large facilities. In fact, when the occasion demands, an order can be completed in a little time as 24 hours.

Envelopes from this plant are always perfectly fresh. And freshness in envelopes insures bright, clean paper stock, tight-fitting corners and sure-sealing flaps. When envelopes are old the paper stock from which they are made often becomes somewhat dimpled and colored, also losing much of its strength. The gum, both on the corners and the flaps, becomes dried out and loses a good part of its adhesive quality.

Being in the envelope business for

almost 39 years," said Mr. Guthman, "I have seen many changes take place—both in envelopes and other things. Naturally, however, I am most interested in envelopes, and the change in them is almost as marked as in any other field. The importance attached to envelopes by practically all firms. There was a time, not so many years ago either, when envelopes were considered almost a 'necessary evil.' Now they are accorded—deservedly—by everyone a most important place of a company's plans..

ATLANTA BOASTS FINEST AUTO CLEANING PLANT

Business Spirit Undampened By Reversals in Markets

BY VICTOR EUBANK

NEW YORK, Nov. 15.—(AP)—Despite a backlash of profit-taking in financial markets, business sentiment continued to brighten during the past week.

A further slight gain in steel markings, and rapid preparations for the new season by the automobile manufacturers, gave an improved tone to these and many affiliated lines.

Contingent on a gain in steel, November, a company has been stocking up for the new year should be expecting heavy business during the next few weeks.

The automobile industry is going into the new season with modest hopes, but executives point out that dealers' stocks of old models have been swept almost bare, and deferred buying by consumers has piled up a large accumulation of unfilled requirements.

The long-depressed building industry was given fresh courage by President Hoover's proposal of a nationwide chain of mortgage discount banks designed to release some \$20,000,000 in credit..

The building industry has been on the decline for a number of years, and despite the fact that overbuilding in some localities is widely prevalent in the aggregate, there has accumulated a vast amount of needed work that will be undertaken as conditions permit.

There was a much better feeling in the petroleum industry, owing to the fact that certain crude oil fields recently were meeting with success. The daily output for the week registered only a small increase. At the same

time the electric power consumption was down but slightly under the preceding seven days' total.

Most wholesale and retail dealers, at least along the coast, are having somewhat by abnormal weather with temperatures that bordered on summer levels. At the same time increased sales were reported with an enlarged market for coal and winter goods. Merchants throughout the country have been stocking up for the new year should be expecting heavy business during the next few weeks.

The advance in the prices of grains is reported to have brought a much larger volume of money into circulation and the removal of credit restrictions in certain sections has given the advance a much more solid basis.

The hide trade, which specialists in this line declare always leads a return to prosperity or a break in business, displayed a much better sentiment throughout the week. Dealers are predicting a decided upturn in cattle prices because of the fact that stocks are reported to be the lowest in years. The manufacture of shoes of the cheaper grade was reported very active, with indications that prices might be seen an advance before Christmas.

The long-depressed spring business in dry goods, especially in men's and women's wear, is still lacking. The reason advanced for this is that most dealers are doing a "hand-to-mouth" trade and keeping their stocks down to the minimum. Wholesalers have had difficulty in obtaining seasonal merchandise, and the manufacturers are also limiting their output almost to the point of filling only immediate and pressing orders.

Steel Industry Clears Decks For Early Return of Profits

CLEVELAND, Ohio, Nov. 15.—(AP)—After nine of the leanest months in the history of steel, during which profits averaged 87-100 of 1 per cent and production 41 per cent, the industry is in fighting trim in the matter of costs says the magazine Steel.

Not only the most sanguine steel executives entertain any illusions of another increase without substantial assistance from the automotive industry, delay by Ford and Chevrolet in pushing new models causing other steel producers to postpone their plans to 1932, but the given despite lack of assistance, has convinced producers late November will see production established at a higher rate.

Fresh structural steel inquiry and immediately pending work total 46,300 tons. Rail orders are extremely slow.

Pipe is featured by one of the largest awards in months, 23,700 tons of 20-inch seamless for a 100-mile line to be rolled at Lorain, Ohio, for an unnamed interest. A Standard Oil subsidiary is maturing plans for a 100-mile, 10-inch line from Oklahoma Woods River, Ill., to take 52,500 tons.

The composite price of finished steel holds at \$48.22, though concessions are being offered on bolts and nuts. Shapes and plates are softer in the east, and prices of structural shapes and reinforcing bars are being shaded drastically in some instances.

The steelworks scrap composite remains \$8.25 and the iron and steel composite also is steady at \$30.63.

of new issues as well as to provide for the maturity of \$901,000,000 of notes and bonds due in 1932 and thereafter. Some bond dealers go so far as to estimate the deficit financing at \$200,000,000, thus making the operation aggregate \$1,200,000,000.

Earnings.

NEW YORK, Nov. 15.—(AP)—Bonds reacted in spite last week. The market advanced for the eighth consecutive time last Monday, but the trend thereafter was irregularly downward.

Trading was quiet most of the time and became so dull on Wednesday that the aggregate sales on the stock exchange totaled only \$8,022,040, the lowest figure for a single day since August 21 when the turnover totaled \$6,675,000. Armistice Day is not a holiday in New York, but its observance as such in many states and foreign countries contributed to the dullness. Sales on Saturday amounted to only \$501,000, the lowest since September 11 when transactions amounted to \$4,565,000.

Orphenn Circuit, Inc., another O-H subsidiary, had a loss of \$225,740 in the first three quarters of 1931, contrasted with net profit of \$586,202 a year ago.

Wall Street Briefs.

Orphenn Circuit, Inc., another O-H subsidiary, had a loss of \$225,740 in the first three quarters of 1931, contrasted with net profit of \$586,202 a year ago.

Wall Street Briefs.

NEW YORK, Nov. 15.—(AP)—Bonds reacted in spite last week. The market advanced for the eighth consecutive time last Monday, but the trend thereafter was irregularly downward.

Trading was quiet most of the time and became so dull on Wednesday that the aggregate sales on the stock exchange totaled only \$8,022,040, the lowest figure for a single day since August 21 when the turnover totaled \$6,675,000. Armistice Day is not a holiday in New York, but its observance as such in many states and foreign countries contributed to the dullness. Sales on Saturday amounted to only \$501,000, the lowest since September 11 when transactions amounted to \$4,565,000.

Orphenn Circuit, Inc., another O-H subsidiary, had a loss of \$225,740 in the first three quarters of 1931, contrasted with net profit of \$586,202 a year ago.

ROOSEVELT LEADS NEW STRAUS POLL

Businessmen in Smaller
Cities Favor Nomina-
tion of Governor.

NEW YORK, Nov. 15.—Jesse Isidor Straus today announced the result of the fifth of his series of democratic presidential preference polls. In this poll, started before Mr. Straus was appointed chairman of the emergency unemployment relief administration, businessmen with a capital of from \$5,000 to \$25,000 in all the states except New York, but entirely in cities and towns of less than 100,000, were canvassed. The sentiment sought and expressed, therefore, is that of the smaller businessman in the smaller communities. In his previous polls Mr. Straus canvassed the larger businessmen, bankers and civic leaders.

Although Governor Franklin D. Roosevelt was the heavy favorite in all the previous polls, in the fifth his lead was enormously increased. The result was as follows:

Franklin D. Roosevelt, 806; Alfred E. Smith, 32; William H. Murray, 82; Owen D. Young, 58; Newton D. Baker, 48; Albert C. Ritchie, 30; Joseph T. Robinson, 20; James A. Reed, 10; William G. McAdoo, 3, and scattering single votes for others.

Results were received from 47 states. New York was not polled, and has not been polled in any of Mr. Straus' enumerations. Governor Roosevelt was the only candidate receiving votes in all 47 states. Ex-Governor Smith received votes in 37, Mr. Young in 32, Mr. Baker in 24, Governor Murray in 16, Governor Ritchie in 14, Senator Robinson in 12 and Senator Reed in 7.

Governor Roosevelt had a plurality in all the states except Maryland, which was carried by Governor Ritchie, and Kansas and Oklahoma, carried by Governor Murray. Roosevelt had more votes than Robinson in Arkansas and more than Baker in Ohio.

Mr. Young, who polled well among the delegates and adherents to the democratic national convention which had nominated Smith for president in 1928, It showed a large majority for Roosevelt.

The second, third and fourth polls were among men listed in Who's Who in America, presidents of banks and directors of corporations. All showed Roosevelt with a plurality.

In the present poll, however, Governor Smith is in second place and Mr. Young has sunk to a poor fourth. The chief feature is the vote for Governor Murray, of Oklahoma. Lack of strength on the part of former Secretary of War Baker is also noteworthy.

Is Your Rest Disturbed?

Deal Promptly with Bladder
Irregularities

Heed promptly bladder irreg-
ularities; burning, scanty and
too frequent passage and get-
ting up at night. They may
warn of certain disordered kid-
ney or bladder conditions. Try
Doan's Pills. No other adver-
tised diuretic is so widely used.
None so well recommended.

Scene of Manchurian Conflict

Reported Japanese orders that Chinese soldiers evacuate Tsitsihar, terminal of the Chinese Eastern railway, hints at the possible bar that developments in the Manchurian situation would put across the path of Russian trade expansion by way of this shortest route to the Pacific.

CHINESE GENERAL SCORNS TRUCE

Continued from First Page.

ern railway, jointly controlled by China and Russia, had long caused to be a neutral line because it had been used to rush Chinese troops to General Ma's assistance. Foreign Minister Shidehara was said to have called Acting Foreign Commissioner Kraskhan's attention to this some time ago, but the latter delayed.

Consular reports and military intelligence, it was said, had accumulated evidence to show that hundreds and perhaps thousands of Koreans and Chinese, trained in Siberia by Soviet officers, made up a so-called "international communist army" which descended on Tsitsihar last week.

Nevertheless, Japan has no intention of pushing her forces north of the river, and has withdrawn its troops from the Nonni river area as soon as General Ma's intentions are determined.

Mr. Young, who polled well among the delegates and adherents to the democratic national convention which had nominated Smith for president in 1928. It showed a large majority for Roosevelt.

The second, third and fourth polls were among men listed in Who's Who in America, presidents of banks and directors of corporations. All showed Roosevelt with a plurality.

In the present poll, however, Governor Smith is in second place and Mr. Young has sunk to a poor fourth. The chief feature is the vote for Governor Murray, of Oklahoma. Lack of strength on the part of former Secretary of War Baker is also noteworthy.

LAST RITES TODAY FOR DR. DOWMAN

Atlanta Physicians Will
Pay Final Tribute to Na-
tionally Famous Surgeon

Members of the Fulton County Medical Society, the staff of the Piedmont Hospital and Emory Unit veterans, World War comrades of Dr. Charles Edward Dowman, famous Atlanta surgeon, who died late Saturday afternoon at a private sanatorium, will form an honorary escort at 11 o'clock today for his funeral service at Spring Hill. Dr. Wallace Rogers and Dr. Louie D. Newton will direct the ritual and interment will be in Oxford (Ga.) cemetery.

Mr. Walter Bedard announced Sunday night that members of the Atlanta Music Club would attend the funeral in his home. Mrs. Dowman is a former president of the club and Dr. Dowman was deeply interested in the club's activities.

In ill health for several months, the death of the noted brain surgeon in his 50th year was nevertheless a shock to the medical fraternity and his hundreds of friends who knew and appreciated his genius. Last August he was admitted to Piedmont hospital, where he remained until his death.

Dowman had for many years been world famous for his research and activity in the field of neurological diagnosis and treatment. Born in Quincy, Fla., in 1882, he was educated in the schools of four Georgia towns and entered Emory University, where he received his B. degree in 1901. The next year he entered Johns Hopkins University and in German and London clinics and he returned to the United States in 1908 to establish an office at Birmingham. It was that year he married Mrs. Dowman, the former Miss Caroline Westmeadland, of Atlanta, who survives him.

In 1915 Dr. Dowman transferred his activities to Atlanta and continued his work in brain disease surgery. He quickly earned an established place among the great medical men of this city.

When the World War called for volunteers in 1917 Dr. Dowman entered the first Emory unit overseas and served in the St. Mihiel and Argonne offensives. This year he was promoted to Decatur, and is followed at Griffin First to Atlanta St. James, and is followed at Griffin by Rev. F. L. Glisson, who leaves Inman Park.

Rev. H. B. May is succeeded at Gainesville First by Rev. G. M. Acree, who comes by transfer from the South Georgia conference. No pastor's name was read for the Augusta St. John church appointment. Dr. J. W. Quillian, one-time pastor at Decatur, is moved from Griffin First to Atlanta St. James, and is followed at Griffin by Rev. F. L. Glisson, who leaves Inman Park.

Rev. F. D. Milton is followed at Covington by Rev. M. M. Maxwell, who is followed at East End by Rev. E. G. Thomasson. Rev. J. T. Robins comes to East Point, to follow Rev. G. F. Venable, who goes to Toccoa, while Rev. J. G. Logan leaves Marietta to go to Thomaston.

Rev. W. H. Clark leaves the presiding eldership of the Augusta district to become pastor at Carrollton, succeeding Rev. B. F. Fraser, who comes to Atlanta Grant Park church.

It appears that some 112 changes were made in the new appointments. This is a much smaller number than was made two years ago, when 200 changes were made, an estimated cost of \$220,000 to the pastors making the transfers.

Rev. Nath Thompson becomes presiding elder of the new Decatur district, and Rev. W. T. Hunnicut becomes presiding elder of the Griffin district.

Transfers out of this conference are Rev. Homer Thompson, to the Florida conference; Rev. Felton Williams, to the South Georgia conference; Rev. W. L. Duren to the Louisiana conference; Rev. J. E. Foster, to the Texas conference; Rev. J. E. Foster, to the Florida conference. Transfers to this conference were Rev. W. A. Tyson, from the South Georgia, and Rev. John B. Peters, from the Louisiana conference.

Session Ends.

Worship services, dedications and the reading of new pastor appointments occupied attention of North Georgia Conference members Sunday, as the session for the current year came to a close. Selection of a meeting place for next year was left to the entertainment committee, with instructions that it undertake entertainment next year at the Harvard plan, possibly with some other city.

One Course.

"The League will recommend di-
rect negotiations between China and
Japan, that's about the only thing
we can do," he said.

"And now it is efforts being put forth
to save the face of the League.

"Frankly, we scarcely expect any
resolution of decision adopted by the
League will be the only thing
we can do, but we have been insisting on
that face, from the start."

As we have often said, China
and Japan are not in a position to
make a final peace settlement.

Japanese quarters, however, were
unwilling to define a probable basis
for a compromise solution. It was
suggested the Japanese might propose
Sino-Japanese negotiations for evacuation
of Manchuria, and negotiations
between Japan and the Manchurian
government.

"First, it was taken designed to save
the face of the Kellogg pact," he said.
"And now it is efforts being put forth
to save the face of the League.

It was reliably reported the United
States has no cut-and-dried plan, but that
Ambassador Dowman was ready to
listen to suggestions with the sole
object, not of digging into treaty tech-
nicalities, but of finding a way to
stop bloodshed and prevent a recur-
rence of trouble in the future.

Observers were predicting the
American ambassador would not hesi-
tate to sit at the League table if
negotiations turned into a major
one, and he would be prepared to
make things as peaceful as possible.

Asked about reports from Wash-
ington, Geneva and Paris that a com-
promise plan was in the making, he said
there were no such suggestions in
communications sent abroad by the
foreign office.

"Japan has not authorized Ambas-
sador Yoshizawa or Matsudaira to
make a compromise and there is
very little chance of a settlement be-
ing reached by these means. We have
presented the League with our
recommendations.

"Unless China is ready to accept
Baron Shidehara's five points . . . the
problem of affairs may continue
indefinitely or until the Chinese con-
sider some means of organization of
authority which will give the assur-
ance that our vast interests will not
be jeopardized by irresponsible war-
lords or bands of marauding bandits."

In the face of extended Japanese
occupation of Manchuria since the
council adjourned on October 24, the
Chinese position was said in autho-
ritative circles to be:

"We can no longer be satisfied with
merely promises, but expect the council
to take some action to restore the
status quo ante in Manchuria."

The problem was described as in-
volving the finding of a settlement
which would be acceptable to public
opinion in Japan and to the Japanese
government and which, while involv-
ing withdrawal of Japanese troops to
the south, would not be a peace-
ful settlement.

Japanese quarters, however, were
unwilling to define a probable basis
for a compromise solution. It was
suggested the Japanese might propose
Sino-Japanese negotiations for evacuation
of Manchuria, and negotiations
between Japan and the Manchurian
government.

"In another slight injury was re-
ceived by Dr. Dowman, 70, at Reinhart
street, and Mrs. C. E. Carter.

Patience Exhausted.

SMUGGLING RING SMASHED BY U.S.

Organization Gaining Entrance for Aliens Broken by 200 Arrests.

CHICAGO, Nov. 15.—(AP)—Government agents, ferreting into the various subsidiaries attributed to the Capone organization, have smashed a well-organized smuggling ring, it was revealed today.

About 250 aliens, most of them menials who manned the alcohol vats and performed like duties, have been listed for deportation along with heads of the ring, Tony Volpe, James Belcastro, and Lawrence Mangano.

The agents have been unobtrusively engaged in the investigation for several months, according to W. Garrison, attorney of the United States department of labor. At the same time, Garrison said, progress has been made toward breaking up several other midwest smuggling rings.

The agents lived quietly in the foreign quarters of the city for weeks before making their move. Then they ran a series of sorties in which as many as 200 persons were seized in one night. Those able to give satisfactory accounts of themselves were released, but many were held for deportation.

The desire to rid the nation of criminals is not the only reason for the deportation drive, the agents said. The government also wishes to protect the immigrant himself from unscrupulous smugglers.

"Many of the poor immigrants enter the country without knowing they are breaking the law," Garrison said. "They give a smaller little as \$500 or as much as \$5,000 to bring them across the border from Canada—a favorite smuggling route in recent years—and believe it to be the regular procedure.

"But after they reach Chicago or some other midwest city, they often wish they were back home. The smugglers blackmail them with threats of exposure and prison, often extorting every dollar they can earn and forcing them into crime, too. We ever hear of cases in which aliens are killed by smugglers who promise them safe passage across the border, collect their fees, and decide not to go through with the bargain."

One of the smugglers seized, Garrison said, is Gerald Francis, of Detroit, who allegedly operated two large airplanes each capable of carrying 12 persons across the border from Canada.

HOLT AND ASTOR IN CAPITOL LEADS

When Jack Holt as Gordon Kent, a retired mining engineer, attempts to carry the logic and ethics of South American mining into the realm of love, he finds that the descendants of the miners who started the country are the ones who are most uncompromising.

Charles Astor, as the handsome attaché of the American embassy in Vienna; Madge Evans, as the Countess Vilma Walden, take the leading roles which lead them into a love that withstands the consanguinities.

Hardie Albright, as Count Carl Walden, beloved brother of the countess, whose death in a brothel, the Alpines, and nobility, scenic as the Italian Alps, placid as the garden pool, and action varied as the mirth of carnival, the thrill of aerial warfare and the emotion of love—these make the week's picture at the Fox theater pleasant entertainment.

Charles Farrell as the handsome attaché of the American embassy in Vienna; Madge Evans, as the Countess Vilma Walden, take the leading roles which lead them into a love that withstands the consanguinities.

Hardie Albright, as Count Carl Walden, beloved brother of the countess, whose death in a brothel, the Alpines, and nobility, scenic as the Italian Alps, placid as the garden pool, and action varied as the mirth of carnival, the thrill of aerial warfare and the emotion of love—these make the week's picture at the Fox theater pleasant entertainment.

War is declared by the United States and Farrell is torn away from the warm affections of Vienna to be placed at the head of an American air squadron. Fate makes him the victim of a desperate air duel over an Austrian aviator who turns out to be the countess' brother. And then the "heartbreaks" begin.

The Fanchon & Marco idea on the stage this week is entitled "Around the World." It contains some good novelty turns, particularly Hank the Mule, and Al Nord and Jeanie.

Mayor Key Thrusts at Bigotry, Refers Jocularly to Smith Case

BY ROY ROBERT.

Mayor James L. Key talked to 1,100 people for 32 minutes yesterday morning, and in the last few sentences, when he concluded, he announced that his subject, "Religious Prejudice," was chosen in error.

"There is no such thing as religious prejudice," said he, adding that if a person had religion they could not possess prejudice, and vice versa.

With no bitterness in his voice, but with a tinge of sarcasm that might be deeper than any religious weapon, Mayor Key made no personal accusations of bigotry and "littleness."

In the outset of his talk he did refer indirectly to the suspension of Dr. Rembert G. Smith by the North Georgia conference last week, but his manner was jocular and humorous.

Reference to Smith Case.

"I see that another of my good brothers has gotten into trouble, too," said the mayor, with additional reference to the remarkable differences in the Smith incident. The Bible teacher brought the heartiest laugh of the day from his congregation when he added:

"This country has gotten to the point where if a man has any intelligence at all, he will be jerked up and tried for it." Those remarks preceded the reading of the regular school lesson concerning the last visit of the Apostle Paul to Jerusalem. Mr. Key had also briefly referred to the marriage of his daughter last week and to his visits to Jacksonville and to Athens, where he attended the Georgia-Tulane football game Saturday.

Following the few moments of light talk and prayer, the mayor read the lesson. April, it paralleled the thoughts in the minds of those who had come to hear a discourse on those who differ with Mr. Key—but if many expected to hear such, they left disappointed.

Biography Compared.

Discussing that part of the lesson which related that Paul was charged with polluting the temple, Mayor Key

FARRELL IS STAR IN FOX PICTURE

An altogether pleasant picture is the Fox feature, "Heartbreak," showing this week at the big theater in the Shrine mosque.

Pleasing personalities, acting with skill to please, most exacting: setting gaieties on the old Austrian palaces and nobility, scenic as the Italian Alps, placid as the garden pool, and action varied as the mirth of carnival, the thrill of aerial warfare and the emotion of love—these make the week's picture at the Fox theater pleasant entertainment.

Charles Farrell as the handsome attaché of the American embassy in Vienna; Madge Evans, as the Countess Vilma Walden, take the leading roles which lead them into a love that withstands the consanguinities.

Hardie Albright, as Count Carl Walden, beloved brother of the countess, whose death in a brothel, the Alpines, and nobility, scenic as the Italian Alps, placid as the garden pool, and action varied as the mirth of carnival, the thrill of aerial warfare and the emotion of love—these make the week's picture at the Fox theater pleasant entertainment.

War is declared by the United States and Farrell is torn away from the warm affections of Vienna to be placed at the head of an American air squadron. Fate makes him the victim of a desperate air duel over an Austrian aviator who turns out to be the countess' brother. And then the "heartbreaks" begin.

The Fanchon & Marco idea on the stage this week is entitled "Around the World." It contains some good novelty turns, particularly Hank the Mule, and Al Nord and Jeanie.

GEORGE BANCROFT IN GEORGIA PICTURE

It's practically enough to say that George Bancroft is the star in the feature picture at the Georgia Keith theater for the week.

In "Rich Man's Folly," he is once again the strong character which has appealed so much to American patrons of the cinema for the last two years. Not much can be said for the story, although it has the earmarks of creative writing, but it has been warped about in a way that affords Bancroft another ideal vehicle for his particular bistrionic talent.

There are several other interesting things on the screen, including Eddie Cantor in a serious vein. Mr. Cantor's attention to the forthcoming performance for the benefit of the unemployed. And Mr. Cantor is worth seeing, and listening to, even when serious.

If it were not for Bancroft starring in the picture offering, R-K-O vaudeville would walk away with the honors at Keith's for the week. As interesting as the acrobatics are, it is quite a relief to witness a performance that is far above the ordinary. That is Togo, who walks a rope pegged over the audience from the stage to the balcony and, after negotiating upward, turns around and slides down. It is one of the best feats of its kind offered an Atlanta audience in a long time.

George Bechtel, the director, does that Jack Randall and Company interpret the adagio dance in a way to bring out most of its beauty. And, to be sure, Vincent Kay and his Georgians are on the program.

—R. E. POWELL

TENN. LEGISLATURE WILL MEET TODAY

Special Session Will Seek To Straighten State's Financial Tangle.

Dog Bite Is Fatal To North Carolinian

MANILA, Nov. 16.—(AP)—A small dog which bit 10 men aboard the destroyer J. D. Edwards, while at Chefoo, China, six weeks ago, caused the death from hydrocephalus today of Coxswain John Macom Jones of Durham, N. C.

The other nine men are being treated at the Canacao hospital at the naval base. Physicians said none of them had shown signs of infection.

The J. D. Edwards arrived here 10 days ago with other destroyers of the Asiatic fleet from China. Jones developed the disease a few days later. The dog was killed and was found to have rabies.

It is reported that the dog had been smuggled aboard the ship in violation of orders and for that reason the men had stood to report their wounds. A board of inquiry was named and when the men in the hospital are able they will be required to give their opinion.

The legislature will consider borrowing \$100,000 of state money of schools that have closed

for lack of state aid and prevent others from suspending; to pay state employees who have not been paid their October salaries; to meet delinquent salaries of six normal school faculty and to operate the government for the rest of the 1931-32 biennium.

Some \$200,000 of the money, H. H. Horton estimated, will be required to do this. Approximately \$3,500,000 of this amount would be disbursed immediately to meet obligations which he said he had chosen a subject erroneously.

Continuing his modest remarks, the mayor said men fight about what conditions had always been that way.

"We seem to think nowadays that no evidence is needed—all we need is a charge against a man and he is forthwith convicted," was his caustic statement.

Mr. and Mrs. Harris Are Honored At Teaby Columbus Woman's Club

COLUMBUS, Ga., Nov. 15.—Mr. and Mrs. Julian Harris of Atlanta, who are spending several days as the guests of Mr. and Mrs. Barschall Andrews, were honor guests at a tea given this afternoon at the Woman's Club. While making their home in Columbus, Mr. and Mrs. Harris contributed of their time, their means and their efforts to the building of the Woman's Club, and it was this opportunity of showing their love and esteem for these distinguished Georgians. The club was beautifully decorated with flowers from the gardens of Mrs. W. C. Bradley and Mrs. Curtis Jordan.

Receiving the guests were the members of the governing board and their husbands, the presidents of the member clubs, and their husbands, a few personal friends of the honor guests. Other distinguished visitors were Mr. and Mrs. Nunnally Johnson, of New York city.

In the receiving line were Mrs. F. B. Gordon, acting president, and Mr. Douglas Neil Jr., formerly Miss Adeleide Koone, were honored Thursday evening. Charles M. and Frank Moore, Mrs. H. F. Goffine, Mrs. C. A. McKibben, Mr. and Mrs. A. N. Murray, Mr. and Mrs. Hugh C. Martin, Mr. and Mrs. Abbott Turner, Mrs. Frank Lumus, Mr. and Mrs. Clifford Swift, Mr. and Mrs. Walter Woodall, Mr. and Mrs. David Rothschild, Mr. and Mrs. Curtis Jordan, Mr. and Mrs. Jefferson C. B. Mr. and Mrs. James P. Kyle, Mr. and Mrs. E. H. Johnson, Mr. and Mrs. Jack Schaeff, Mrs. M. L. Flournoy, Mrs. Marshall Harrison, Mr. and Mrs. John M. Flournoy, Mrs. Mark Sternberg and Mr. and Mrs. W. C. Bradley. In addition to these officials of the club were Mr. and Mrs. Barschall Andrews, Mr. and Mrs. Lloyd Bowers, Mrs. Dorothy P. and Mr. and Mrs. Charles Hudson, Miss Latimer Watson, Mr. and Mrs. William del. Worsley, Mr. and Mrs. J. W. McPherson, Mr. and Mrs. W. E. Page, Mr. and Mrs. Edmund Page, Mr. and Mrs. R. M. Page and Dr. and Mrs. W. W. Stewart. The invitation list included more than six hundred members of the club and their husbands.

Miss Kendrick Honored.

Miss Neel Kendrick, of Atlanta, has

Personal Intelligence

Mesdames Howard C. McCutcheon, J. R. Jepson, L. D. T. Quincy, A. B. Golden and Sue P. Price, leave today for Jacksonville, Fla., to attend the convention of the general division, U. D. C., which takes place this week. They will represent the Fulton county chapter, U. D. C., of which Mrs. McCutcheon is president.

Mr. and Mrs. M. H. Elder were among the Atlantans attending the Georgia-Tulane football game in Atlanta Saturday.

Mrs. Eliza Newell Conyers, of Cartersville, Ga., who has been visiting her daughter, Mrs. Frank E. Matthews, left Thursday for Fort Myers, Fla., to spend the winter with her son, Colonel James Bennett Conyers, and Miss Madge Conyers.

Misses Arline Scully, Margaret Scully, Genevieve Scully and Scully have taken possession of their new home at 535 Orme circle.

Mr. and Mrs. Carl E. Woodward, of New Orleans, were weekend guests of Mr. and Mrs. George C. Moseley at their home on Myrtle street.

Miss Mary Belle Fitch has returned to Bowling Green, Ky., after having visited Miss Frances Weinman at the Georgia Terrace.

Mrs. Sidney Perry Cooper and Miss Mary Lou Jackson Cooper, of Henderson, N. C., were recent guests of Dr. and Mrs. E. Bates Block, at their Peachtree road residence. Mrs. Cooper will be remembered as the lovely Miss Mary Lou Jackson, of Atlanta.

Mrs. Harry Harman Sr. left Thursday by motor for Charlotte, N. C., where she will join her daughter, Mrs. Lucy S. Doughty, and their son, Mr. and Mrs. E. Bates Block, at their Peachtree road residence. Mrs. Harman will spend the winter with her sons and daughters, Mr. and Mrs. William Rawson and Mr. and Mrs. Doughty, who reside at Douglas, L. L.

Mr. and Mrs. N. D. Foster announced the birth of a son Sunday, November 8, Crawford W. Long hospital, who has been given the name, William Nolen. Mrs. Foster was formerly Miss Marguerite Sime.

Mesdames John W. Zuber, L. W. Rogers, A. C. McHan, Kate Gilbert, B. Graham West, Yancey Bryant and James N. Brawner have returned from a vacation trip to Winter Haven, where they were guests of Mr. and Mrs. P. A. McHewin and Mr. and Mrs. R. E. McCuen, at their home, Maczume lodge.

Dr. W. F. Melton Gives Origin of Songs To Business and Professional Women

Dr. W. F. Melton was the principal guest speaker at the dinner meeting of the Business and Professional Women's Club held last week. He gave the origin of many songs which have made their way into the hearts of the world. He spoke of songs as a cry of life, and cited instances where poets in their saddest moments have written their best poems and songs. The origin of numerous sentimental and patriotic songs and well known hymns was given by Dr. Martin, who closed his talk by giving the origin of Dr. John Fawcett's "Blest Be the Tie That Binds."

Another guest and speaker was Mrs. Marcia Raoul Miller, who spoke of the Community Theater movement, or organized in Atlanta the past summer to encourage young people to act and to encourage amateur groups that are not always available now exist in large centers. Mrs. Miller said that there is not only a great deal of talent for acting among young men and women, but many artists who can design and make sets; and that with the support of the public these groups will be in position to present plays and presentations which will be a credit to the movement in Atlanta. The next play will be presented in December at the Woman's Club.

A report was made that \$36.50 was raised by members of the local club of business and professional women at the meeting for emergency relief and will be turned over to the committee.

Mrs. W. H. Glenn, chairman of the Christmas party and doll committee, announced that a dozen dolls had been contributed and that a party, to which children who did not receive the dolls will be brought by their mothers, will be held at the clubrooms on Forrest avenue Christmas week. Members who have not already contributed dolls are asked to communicate with Mrs. Glenn, or to send dolls to the club.

Tea Announced.

A tea will be given at the home of Miss Rebecca Shuman, 408 Angier Place, Sunday, November 22, from 4-6 o'clock. Miss Shuman and Mrs. Cecil Fuller and her committee will act as hostesses.

Miss Jane Van De Vrede, Mrs. E. T. Morgan, Mrs. Ann Richards, Miss Elizabeth Eager and Mrs. Cecil Fuller were elected as members of a nominating committee to report at the December meeting, to be held at the Winfield.

Miss Edna Bowditch, chairman of a special committee to co-operate with the American Legion in the sale of poppies, made report at the recent meeting of the sale of nearly 100 poppies.

The club deserved the adoption by Atlanta of eastern standard time after the club had taken action showing that 70 per cent of the business transacted must be done so at the time. It was shown that several important cities considerably farther west than Atlanta have already adopted eastern standard time. The plan of the Chamber of Commerce for unemployment relief was adopted.

Petition Signed.

Petition from the women of the United States to the international disarmament conference to be held in Geneva, Switzerland, in 1932, urging reduction of national armaments in the interest of worldwide peace, was signed by all members present. The names of one million women are desired and other members are urged to sign the petition which will be kept at headquarters for a short while. The local club is sponsoring a se-

WHISPER IT TO THE LADIES

Tell them that well informed women get positive relief during periods of acute pain, jumping nerves, and deep depression. Each month they outfit nature with a simple, harmless preparation that has relieved the fair sex for more than one hundred years.

We believe the pain becomes acute, they take two to four teaspoons of Angostura, the prescription of an old family doctor, in an equal quantity of sweetened hot water. It positively contains no harmful ingredients. The effect is immediate and satisfying. Twitching nerves are soothed, the feeling of "pressure" is relieved, the stomach gets a sense of warmth and comfort, spirits brighten, and life is, indeed, worth while again. It does not fail.

Try this old-time medicine which contains absolutely nothing bad for the heart. Doctors everywhere prescribe it. Carry a small bottle to your work prepared half and half with sweetened water, and take whenever the pain is bad. ANGOSTURA can be found at all drug stores. Ask for the popular size, 5 cent bottle. —(adv.)

Mrs. O. D. Atkinson was hostess at bridge Wednesday afternoon.

Mr. and Mrs. Jim Everett, of Rockmart, Ga., were the week-end guests of Mr. and Mrs. Dan Lane.

CUT TO SIZE 48—PATTERN 2238.

This model is the creation of a designer who knew just what lines to emphasize and what curves to hide on the not-too-slim figure. The becoming suit is the graceful rever and collar with the stunning crepe and velvet and careful skirt seaming combine to make a beautiful frock for every day time occasion. The original was fashioned of black canton crepe, the rever and collar were green satin, the vestee was of cream lace. The belt tab is lined in green. Buckle and buttons are rhinestones.

Pattern 2238 is obtainable only in sizes 34, 36, 38, 40, 42, 44, 46 and 48.

Size 36 requires 7-8 yards 39-inch fabric. 1 yard 32-inch fabric.

Send 15c in coins or stamps (coins preferred) for each pattern. Write plainly your name, address and style number. Be sure to state size wanted.

Send for the Winter Catalog. It features the newest in afternoon, sports and house dresses, lingerie, pajamas and kiddies' clothes. Also delicate gift wrappings. Price of catalog 15c. Address all mail and orders to Lillian Mae Patterns Department, care The Constitution, Atlanta, Ga.

WIFE PRESERVERS.

Equal parts of turpentine and ammonia will remove paint from clothing. Saturate garment a few times in the mixture, then wash in soap and water.

WOMEN'S MEETINGS

MONDAY, NOVEMBER 16. The Planters meet today at the residence of Mrs. Harold Armstrong on Cherokee road.

Felicians will meet at the Columbian Club at 3 o'clock.

THE GUMPS—FAREWELL! FAREWELL!

The Marriage Racket - By VINA DELMAR

INSTALLMENT XXIV.

It was obvious that Russell Byrnes would suffer no dearth of ladies in his life. He wouldn't even notice that one Irma Graham had forgotten to call and thank him for the cabin he had given one night while slightly lit. As a matter of fact he could probably get other accommodations on any boat he selected. He would have friends and contacts and money enough to do anything he chose.

And perhaps back in America she would call and thank him. They would have tea together and he would make a few languid passes at her. She would become matronly and dignified and then...

They danced together again. He was staying at the Crillon. Irma was to call him in the morning after she had explained the new arrangement to Wallace. They'd all go to the steamship office then and do the thing properly.

"And perhaps you and I could go somewhere tomorrow evening?" he suggested.

"I raised her eyes and looked at him with just the proper amount of longing. Nothing would please her more, her eyes told him. Russell Byrnes had encountered off-stage actresses before, but none so convincing. He found himself giving her just the tiniest, tenderest kind of squeeze and whispering, "I know you can't, girlie. I won't coax you. Some time back home?"

Irma was glad when she and Wallace were alone that night. She was anxious to tell him what she had done, anxious to have the unpleasant phases of the matter over.

"We're going home Wednesday," she said abruptly.

"Wednesday? How?"

"Mr. Byrnes is giving us his cabin."

"Oh, he is?"

"Yes, isn't that nice of him?"

Wallace said, "What the hell is he doing that for?"

"Because I asked him to."

"Oh, You must have impressed him plenty."

"Maybe I did. Anyhow we've got the cabin. I'm so glad that I could cry. Gee, I'll be glad to see the baby."

Wallace fetched a weary sigh.

"Irma," he said, "you were right. We should never have come on this trip. It probably be one of those twelve hundred or so cabins I'll have to buy from Byrnes."

A wave of dislike for her husband swept over Irma with terrible force and suddenness. How could he think of money when nothing was important but getting back to the baby."

"If you like," she said coldly, "I'll ask Mr. Byrnes to pay for it. Or better yet, you stay here and I'll go home with him."

"That's a nice way to talk, isn't it? Especially for a person who pretends to have no interest in life except her baby. I believe Russell Byrnes impressed you as much as you have impressed him."

"I'm carried away by him, Wallace. He's my great love. Oh, go ahead and be thoroughly Thrace and ask if he kissed me at the end of the waltz. If you had imagination enough to realize how strong my desire is to get home to see the baby is you'd be furious. Russell Byrnes could have me and kindred through the many exchange for that cabin. See? So could George Dexter, or Kemp Austin, or anybody else."

"Irma, you talk like a fool."

"Sure. I wouldn't think if you had a streak of authority in you. You could have gotten me passage if you'd half tried. Why didn't you try all the agencies and offices? You don't know, you poor soul, that children get crippled by little falls and bumps. All you know is that a wife is supposed to conduct herself with dignity and modesty."

"Irma, what the hell is the matter with you? You're raving. Oh, you poor kid."

In the few minutes that followed, he was very tender and helpful, for suddenly she had become violently ill. It was possible now for him to be pleasant and even jocular. The poor little thing had drunk too much. Wallace always felt at peace with the world when his wife was doing something he could not understand—even death.

Bulldogs and Jackets To Face Old Rivals in Saturday's Games

TULANE IS "SURE SHOT" FOR ROSE BOWL BID

TECH, GEORGIA FACE OLD FOES ON SATURDAY

Bulldogs Meet Auburn in Columbus; Jackets Entertain Florida.

By Jimmy Jones.

That hallowed blurb about history repeating itself may be musty and time worn, but it still rings true in so far as Southern conference football is concerned.

Another season is nearing its close, the competing teams have been weighed in battle and once more Tulane and Tennessee have been projected forward as the two leading teams. And they will remain in that status until the two are brought together by some outside chance in a post-season game.

Tulane's convincing 20-7 conquest over Georgia Saturday before a sell-out, excited crowd hurled the Bulldogs over the bluff and Tennessee marched ruthlessly onward over Vandals in the annual struggle at Knoxville. George McEver, the Wild Bull, came back after a year's retirement to settle the issue again.

MEET RIVALS.

Memorable football season proceeds merrily onward. Georgia Tech and Georgia will be pitted against the oldest rivals Saturday. The Jackets, invigorated by a remarkable showing against Penn, in which they piled up 15 first downs against 9 for the visitors, plays the Florida Aligators here and Georgia journeys to Columbus for a traditional and colorful battle with Auburn's Tigers from just over the river.

Tech's great stand which set placid Philadelphians to grating wildly will add new interest to Saturday's contest with Florida at Grant field, for the Jackets will be out to avenge a 55-7 beating that dates back to last year.

The Jackets played the Quakers the hardest game seen at Franklin field this year, so newspapermen there said, but the best part of it is that the team came out unscathed. It was learned yesterday that Pat Barron, who was a target for hard tackling after that pretty touchdown pass, had suffered only a bruised side instead of a rib fracture, at first.

NEW PASS STAR.

Tech uncovered a new forward pass star in Buck Flowers, while of the young backs, Chick Galloway and Peter Peterson, the latter movement, Galloway started off that early drive with a 13-yard run, while late in the game Peterson was slicing through the Quaker line for repeated gains on reverse plays.

Now if some youth with a gifted toe will step up to those extra points over the line, Tech will be a tough team, indeed, from now on out. Inability to make the extra point cost the Jackets the Carolina and Penn games.

Among the standout performances of Saturday was North Carolina State's 34-0 drubbing of Duke. This and Tech's game furnished the firework in the conference outside of those titanic games at Athens and Knoxville, of course.

Washington and Lee's Generals won an intersectional victory for Jimmy Dehart over Princeton, 6 to 0; Alabama continued her victorious march by taking poor Clemson in stride, 74-7, and jumping to third place.

TELEGRAPH'S SIDE HURT.

Washington's Kelley, diminutive Bulldog end, who was taken from the game Saturday after his side had been painfully hurt, will probably not practice the first few days of the week. Kelley is not seriously hurt, it is believed, but Georgia coaches are taking no chances on anything happening to their regular right end.

It is doubtful if a more resourceful team has come up on the football horizon in years than this one which Bernie Bierman is carrying around spreading grief and woe.

The Tulane team is able to meet any emergency which the Ripper's shoulder is not broken. Although ligaments are badly bruised that he is expected to be kept on the sideline for the next week.

ROBERTS' SIDE HURT.

Washington's Kelley, diminutive Bulldog end, who was taken from the game Saturday after his side had been painfully hurt, will probably not practice the first few days of the week.

Disappointed in their dreams of a national football title, the Bulldogs spent today resting up from the hardest game they had this season. Minor bruises were nursed by members of the squad other than Roberts, Bierman and Kelley.

Mississippi Aggies won from Southwestern, 14-0, and L. S. U.'s Tigers found Ole Miss grommed for the slaughter and proceeded to make the kill by a 28-3 score.

Virginia, who has been a doormat for the other conference teams this year, braced to hold V. P. I. to a scoreless tie.

There isn't a great deal left on the hill of fare now. Tulane should take Sewanee at New Orleans Saturday and then the Wave has only L. S. U. to worry about on November 28. This game, a state affair, is usually close, but the Wave is favored to roll right on out and comb the beach clean for another solid season of conquests.

VOLUNTEERS VS. WILDCATS.

Tennessee has only to face Kentucky in Lexington on November 28. This game will be a sad one for Tennessee, regardless of how it terminates, for it marks the passing of the great McEver, who came back this year (this time as a great run and passer) to scourge conference gridirons.

North Carolina State and South Carolina play a game of ancient vintage at Raleigh next Saturday. But for the most part, outside of Georgia, Auburn and Tech, Florida, there is a full along the battle front Saturday.

The teams will fight through for the record possible, while Tulane and Tennessee sweep their remaining games to bring on another long winter of arguing about that "championship."

Grove Shuts Out Japanese Nine, 11-0.

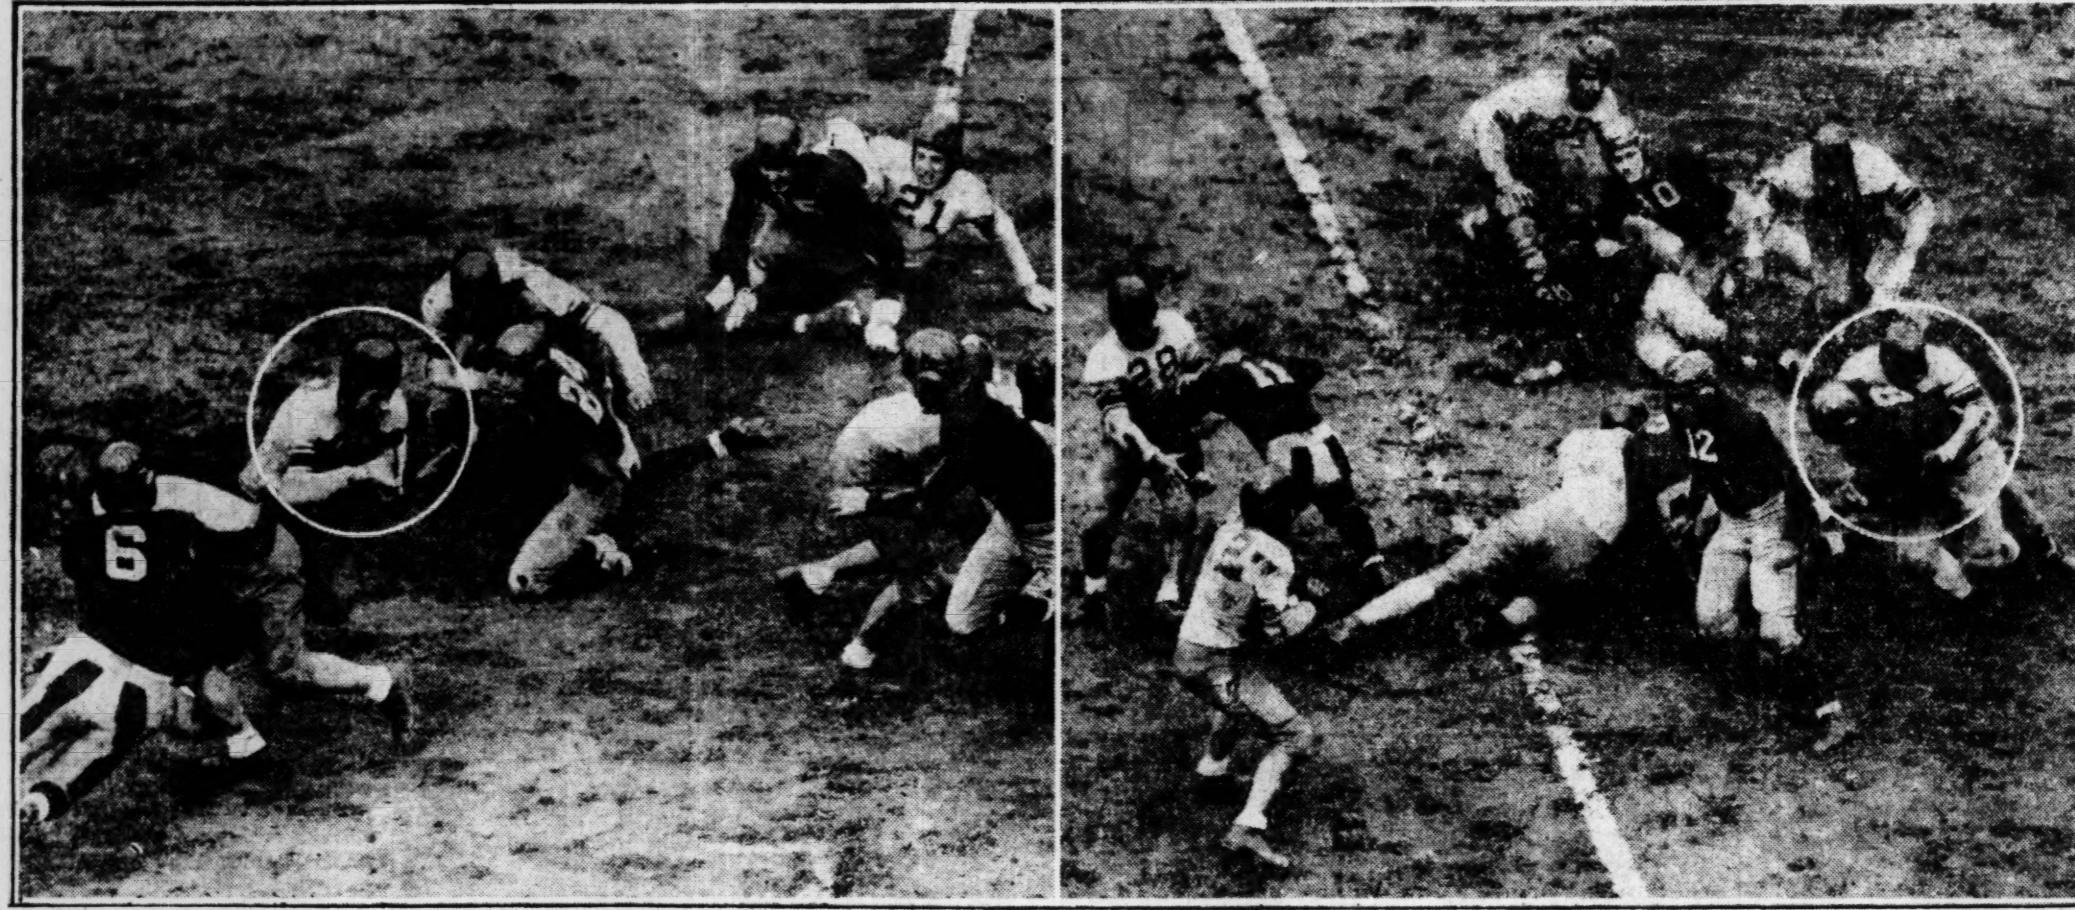

TOKYO, Japan, Nov. 15.—The touring United States all-star baseball team defeated a Japanese team, 11 to 0, today, before 50,000 fans who alternated between cheers for the fielding of the Americans and boos for the failure of three Japanese pitchers to make a better showing.

Lloyd Grove, of the Philadelphia Athletics, shut out the Japanese team with three hits.

The score:

U. S. All-Stars 11 1 1
Japan 0 3 4

Grove and Ruel; Watabe, Wakayashi, Tabe and Kuji, Toshiharu.

Scenes From Georgia Tech's Mighty Battle With Pennsylvania

Georgia Tech startled the south and the north Saturday by staging a great come-back in losing 13 to 12 to Pennsylvania at Franklin field. Philadelphia papers paid high tribute to the southerners. At the right Carl Perina, Penn's

great fullback, is shown not doing so well trying to buck the Jacket line. He is stopped cold. The Jackets came in behind his interference to get him. At the left Chick Galloway, Tech halfback, going through the line for a nice gain.

Galloway started Tech's first touchdown drive with a 13-yard run. The Alexander-coached team showed fine form in the game and their showing is one of the best made in an intersectional game this month. Photos by Associated Press.

RIPPER' TO MISS AUBURN GAME

Roberts Has Bruised Shoulder; Kelley and Batcheller Better.

By Al Smith.

ATHENS, Ga., Nov. 15.—Jack "The Ripper" Roberts, whose powerful off tackle smashes and speedy end runs have brought glory to Georgia many times in the past three years, will watch the Auburn-Georgia game from the sideline Saturday in his last home one-chance against the team.

A badly bruised shoulder, is Roberts' souvenir of the Tulane game. An x-ray picture taken today revealed that the Ripper's shoulder is not broken.

Now if some youth with a gifted toe will step up to those extra points over the line, Tech will be a tough team, indeed, from now on out.

Inability to make the extra point cost the Jackets the Carolina and Penn games.

Among the standout performances of Saturday was North Carolina State's 34-0 drubbing of Duke. This and Tech's game furnished the firework in the conference outside of those titanic games at Athens and Knoxville, of course.

Washington and Lee's Generals won an intersectional victory for Jimmy Dehart over Princeton, 6 to 0; Alabama continued her victorious march by taking poor Clemson in stride, 74-7, and jumping to third place.

It is doubtful if a more resourceful team has come up on the football horizon in years than this one which Bernie Bierman is carrying around spreading grief and woe.

Northwestern Agrees To Battle Purdue in Charity Tilt Nov. 28

SIX PACEMAKERS MARCH STEADILY TOWARD TITLES

Tulane, Tennessee Have Easiest Paths to Unbeaten Season.

By Herbert W. Barker,
Associated Press Sports Writer,
NEW YORK, Nov. 15.—(P)—The football march that leads to national recognition gets more difficult as the season goes on, but Notre Dame and Northwestern, Tulane and Tennessee, Harvard and Southern Methodist, so far have taken all hurdles without a slip.

For some of these the path still to be traversed is full of difficulties. Notre Dame yet must battle Southern, California and Army. Northwestern will have to dispose of Iowa and Purdue. The game with the latter was added to the day as the banner attraction of the Big Ten's charity schedule for November 28.

Tulane has Sewanee, Louisiana State and Washington State. Southern Methodist must play Navy, Texas and St. Mary's, of Oklahoma City.

Harvard has only one more game with Yale, but that should be the Crimson's last before next Saturday, Tennessee, with Kentucky for a final opponent, apparently is certain of finishing the season without defeat or tie.

LEADERS KEEP PACE.

All six of these leaders checked in with victories yesterday. Tulane, with its Southern conference as well as national hopes in the balance, soundly whipped Georgia, previously unbroken, 20-7. Tennessee turned back the powerful Vanderbilt Commodores by approximately the same margin, 21-7.

Notre Dame took things easily in a 20-0 defeat of the Navy, but Northwestern, inexplicably sluggish, just managed to nose out Indiana, 7-6. Harvard defeated Holy Cross, 7-0. Southern Methodist was hard pressed to turn back Baylor, 6-0.

The eastern program was marked by a series of upsets in which three previously unbeaten elevens, Cornell, Temple and Syracuse, were defeated. Cornell gained ground in huge chunks around the field, against Dartmouth, but could not pierce the Indian defense near the goal line nor stop the sensational passing combination of Bill Morton and Bill McCall, and a 14-0 Dartmouth victory was the result.

Syracuse never had a chance against the heavy pounding of Cornell blocks and went down to a 21-7 wallowing. Temple, tied for two touchdowns in the last period, but these failed to overcome Carnegie Tech's lead and the Pittsburghers won, 19-13.

ARMY TROUBLED.

Perhaps a bigger surprise than any was the decisiveness of Pittsburgh's defeat of the Army, 26-0, the worst trouncing an Army team has suffered since 1912. A crowd of 80,000 saw Fordham and New York University play to a scoreless tie, Princeton in its sixth straight beating, this time by Michigan and Lee, 6-0. Penn nosed out Georgia Tech, 13-12. Villanova and Detroit played a 0-0 tie in the midwest.

Aside from Northwestern's close win over Indiana, Ohio State's triumph at the expense of Wisconsin, 6-0, was the highlight of the Big Ten program. Chicago, however, surprised with a 14-0 victory over Illinois, and Purdue walloped Illinois, 22-0. Michigan and Michigan State drew at 0-0 for the second year in a row.

Nebraska eliminated Kansas State from the Big Six race, 6-3, and will battle Iowa State for the title next Saturday. Iowa State lost by a single point, 7-6, to Drake in a non-conference game Saturday. Missouri stopped Oklahoma, 21-0, in the other Big Six tangle.

The defeat of Texas Christian by Texas, 10-0, practically assured Southern Methodist of the Southwest conference title, although Methodist yet must meet Christian, Texas A. & M. sprang a minor surprise with a 7-0 defeat of Rice.

DUKE BIGGEST UPSET.

While the Tulane-Georgia and Tennessee-Vanderbilt battles were the high spots of the Southern conference slate, the biggest upset of the day in that section was produced by North Carolina, which whipped Duke, 14-0. South Carolina and Florida played to a 6-6 tie, Auburn beat Sewanee, 12-0, and Kentucky defeated Virginia Military, 20-12.

Colorado University could not stop Utah's march to the Rocky Mountain conference championship, and lost, 32-0. The Utah Aggies checked the Colorado, Arizona and Colorado College upset Denver, 8-0.

Washington State's long domination of football in the Pacific northwest, beating the 1930 Pacific coast champions, 12-0,

Johnston Turns Tennessee's End

Johnston, Vanderbilt halfback, is shown in the above Associated Press photo starting around Tennessee's left end in the game at Knoxville Saturday when the Vols scuttled

the Commodore's ship, 21 to 7. He had perfect interference at the start of this run but that didn't help much when they added up the final score of the game.

BIG TEN CLOSES CHARITY SLATE

Wisconsin-Michigan and Ohio State-Minnesota Tilts Arranged.

CHICAGO, Nov. 15.—(P)—Athletic directors and football coaches of the Western conference got together today, arranged three feature attractions for the benefit of charity on November 28, and for good measure, figured out a one-day "foursome" among the teams in the second division.

And I wonder where the critics are who told Dean S. V. Sanford, four years ago, that he would never be able to fill the stadium he planned to build.

The move now is to make the south side 60 rows high, the same height as that on the north.

RESURGAM.

Lawrence Perry, nationally-known sports writer, spent the week-end in Athens as the guest of Dean S. V. Sanford, director of athletics. The distress of the dean and his compatriots at the loss to Tulane Saturday was so severe that Perry composed a poem for them. The poem was composed and read to the dinner guests after the game Saturday.

The poem, which was not part of his regular newspaper work, is entitled "Resurgam," which, freely translated from the Latin, means, "We Have Just Begun to Fight." It appeared in the Athens Banner-Herald Sunday, as follows:

RESURGAM.

By Lawrence Perry.
I like the thought that Georgia's pride
is an eternal thing.
Brawled in cherished virtues that
From ancient forbears spring.
And bloody though the head has been
Ne'er yet has it been bowed.
In victor's yoke or tyrant's thrall,
Her eyes oft veiled yet proud.

And this is true (as legend shuns) no error
And history points the truth.
No Georgian yet has suffered hurt
And not repaid in ruth.
Full long delayed it may have been—
And yet again may be—
But the grapes of wrath have ripened
Grimly, infallibly.

What Yankee did in '64
From Atlanta to the sea
Stood unrequited through the years,
'et lived in memory.
I lived until a second host—
The host of Eli Yale—
From far New England durst set foot
On Georgian hill and swale.

Nor shot nor shell befell their lot,
Nor bayonet bade them stand;
'Twas Georgian touchdowns swallowed them
And all the Eli band.
'Twas Georgian sports that brightened them
And made them sick of soul
On the tenth day of October
In the mammoth Eli bowl.

And now Tulane; Tulane be warned
The day will not be long
When every point you made today
And every victory song
And every cheer and every paean
You raised this sanguined day
Will be returned in kindred wise
Full meed in every way.

We yield today through stress of wear
On fields you never knew.
Beware, Tulane, we gird ourselves,
Our vengeance will ensue.
So grudge we not your triumph;
Enjoy it while you may;
For Georgia looks into the years—
And lets you have today.

GEORGIA TECH'S GREAT COME-BACK.

Georgia Tech has made one of the finest come-backs in all of Georgia Tech's magnificent football history. And that without winning a game.

There have been many fine things in Tech's past history but none finer than this team taking a battering lot of punishment from superior foes in the early season and then coming back to tie North Carolina one week and lose to Pennsylvania 13 to 12 the next. It is to be hoped that the Tech people and the Atlanta people are properly ashamed of themselves for deserting a team that has done what this one has.

There is little material out there. There is little natural football ability. But the boys have kept trying and they are beginning to obtain a few results. If any team deserves a great hand it is Tech. Not forgetting, of course, William Alexander and his aides who have stuck by their boys when others might have quit.

MERCER'S SUCCESS.

Along with Harry Mehre, Dan McGugin and others who took one on the chin Saturday, Lake Russell, of Mercer, is no doubt nursing a "misery."

There is really no need for it. In this day and time a football team must have the greatest of material and the greatest of luck to go through a difficult schedule undefeated.

Russell has given Macon the finest football in history. He has definitely established himself as a capable and resourceful coach. Macon's home-coming day was a great success. Now that Macon has found out how much fun it is to have a good team and see it play they will keep the habit. The Mercer season is a fine success regardless of what else happens.

ADD—CHARITY FOOTBALL.

The latest addition to the charity football program which is being arranged among leading college teams throughout the country is a game between Vanderbilt and Auburn. This contest, it is understood, will take place some time early in December.
